INTRODUCTION

On October 8, 1957, Stanley S. Kresge, the son of the founder of the Kresge Company, addressed the Newcomen Society in Detroit, Michigan. His subject was "S. S. Kresge Company and Its Builder Sebastian S. Kresge." Stanley Kresge said:

"During the last half of the nineteenth century, the stage was set for the developments of our wonderful twentieth century.

"With imagination unfettered, slowly but surely, American ingenuity began to find ways for making new things and ways to distribute them, and, simultaneously, the American people acquired a desire to have these new things, which were, despite their frequent crudeness, an improvement over the things which people had used in the pioneer days when the first necessity was to tame the wilderness.

"It is well to remember that this was the period in which . . . customers were intrigued by what a nickel or a dime could buy."

And you will be, too, as you browse through the pages of this "Katalog" issued by the Kresge Company in 1913 when the firm briefly entered the mail-order business, and also had over a hundred five-and-ten stores in the eastern and midwestern sections of the United States.

Everything in the "Katalog" sold for a nickel or a dime and you could buy human hair switches for only 10¢; Rosewood pipes—10¢; "extra good quality" bleached huck towels—5¢; "linen finish ink" tablets with 55 leaves—5¢; printed muslin U.S. flags, 11x17 inches—5¢.

But this little "Katalog" is also an absorbing chronicle of the needs and desires of the people of the early twentieth century. For sale were watch fobs, smelling salts "invaluable for ladies traveling," gauze stockings, breakfast caps, satin palm fans, wool powder puffs, "books for red-blooded

boys by Horatio Alger, Jr.," nickeloid flutes, salt safes, gas globes, lamp wicks and tiddlywinks.

The latest popular sheet music included "Always Take a Girl Named Daisy," "He Wants Someone to Call Him Papa" and "In the Harbor of Home Sweet Home."

Today the Kresge Company is a multi-billion-dollar mass merchandiser. The firm's K marts are the most successful discount department stores in the world. But the strength of the company today is rooted in this nostalgia of the early 1900's. Kresge's "Katalog" promised "every article is useful and of a dependable quality." Over sixty years have passed since the "Katalog" was issued, and the Kresge Company still promises this today.

Get your friends and neighbors to order with you. You can save money for them and yourself, and in addition you can earn one of the beautiful premiums offered on the back cover of this Katalog.

It is Easy to Order 5 and 10 Cent Merchandise from this Katalog

Buying 5 and 10 cent merchandise by mail is indeed very simple and easy—so easy that anyone who can read and write can do it. The following simplified instructions will make everything so perfectly clear to you that you can order from this Katalog with as much satisfaction as if you were to go to one of our many stores and personally select the merchandise.

It's easy to order from Kresge's New Parcel Post 5 & 10c Store.

your wants plain and there will be no danger of our misunderstanding you. It is important that you write your order according to the following instructions.

OUR TERMS

Our terms are cash with the order. This method enables us to conduct our business with the least expense, therefore making it possible for us to give you better values for your money than we could, were our systems not based on the most economical methods of conducting each department. It is much better for you to send the full remittance with your order because you have no extra expense to pay the express company for returning the money to us. There is no advantage in having your merchandise sent C. O. D. as in many instances the express agent will not permit examination of merchandise until the full amount has been paid, including all charges. You positively take no risk in sending full payment with your order, because we absolutely guarantee to please you or refund your money. Make all money orders and checks payable to S. S. Kresge Company.

HOW TO SEND MONEY

There are several safe methods by which you can send money. We advise you to remit by post office money order, express money order, New York bank draft, or by registered mail. The safest and one of the most convenient ways is by post office money order. We do not advise the sending of cash by letter, but if it is inconvenient for you to remit in any other way, be sure to use a strong envelope, seal it securely, and have it registered. **DO NOT SEND POSTAGE STAMPS** in payment of your order as we cannot dispose of them except at a loss, and handling stamps is a great inconvenience.

WRITE YOUR NAME AND ADDRESS PLAINLY

The first thing to do when making out your order is to write your name, town, county, state, R. F. D.

We have prepared a special order blank for you to use when ordering, one of which is enclosed with this Katalog. Should you not have one of our order blanks, use a piece of plain paper, writing only on one side of the paper. We will cheerfully send a supply of order blanks upon request.

In writing your order, use every precaution to make

or post office box as plainly as you possibly can, as it is of very great importance to have your name and address correct and plainly written.

If you are married, always sign your husband's initials. Should you change your address, please advise us, stating your old as well as new address.

ACKNOWLEDGMENT OF ORDERS

As we endeavor to ship all orders within from 6 to 12 hours after same have been received, we will not send acknowledgments of orders except in instances where a slight delay is occasioned by either lack of information, or where the order will be temporarily delayed for a few days waiting for a new supply of merchandise. In this case we will always advise you just when your order will be shipped. Should it happen that you do not receive your order within a reasonable time, please write us promptly, stating the exact date you sent the order and the amount enclosed, and how you sent the money, whether by post office or express money order, bank draft or registered letter.

SHIPPING POINT

If your shipping point is different from your post office, be sure to advise us to what point you desire shipment made, as well as giving us your post office address. Always give full Katalog number of article or articles you are ordering, sizes and colors, and any other information that will enable us to handle your order promptly.

Be sure to advise us just how and to what point you desire to have your order shipped. That is, state by what railroad or nearest express office. If you want your order shipped by freight be sure to tell us whether or not there is a freight agent at your shipping point. If there is no agent at your station and you desire charges prepaid, it will be necessary for you to send us a sufficient amount of money to prepay freight charges. Should you send us more than enough to cover charges, we will promptly refund you the difference. It is always advisable to send us a little more money than will be needed rather than not to send enough, as in that case your order would be delayed until we could write you for the additional amount needed to prepay freight charges.

PROTECTION FROM LOSS OF MERCHANDISE IN SHIPMENT

We absolutely guarantee safe delivery of all merchandise you order from us without any extra cost to you whatever, no matter whether same was shipped by parcel post, express or freight. We will refill all orders that fail to reach you, just as quickly as we can secure the proper information from the post office department, express company, or railroad company, regarding the non-delivery of said merchandise. Please bear in mind that you pay nothing extra for this protection as we feel that it is our duty to see that all merchandise ordered from us reaches you safely regardless of where you live or how you ordered it shipped.

Please read these instructions before writing out your order

CLUB ORDERS SAVE YOU MONEY

In order to help you share to the fullest extent the benefits of the low prices quoted in this Katalog, we suggest the use of the club order plan—that is, allowing your friends and neighbors to order merchandise with you, thus making the greatest possible saving in transportation charges. Club orders can either be shipped by parcel post, express or freight, the latter method offering the greatest saving. The freight charges on a 20-pound order often amount to as much as a 100-pound order, so you see that by having your friends order with you, you reduce your part of the freight charges to a very small amount. Remember that we prepay freight charges on all orders, amounting to \$10 or more to the states mentioned in the prepay list on page 3. Also remember that we help you pay freight charges to any state in the U. S. not mentioned in the prepay list, the average allowance being 50c on every 100 pounds on orders amounting to \$10 or more, consisting of dry goods, hardware, crockery, etc. By getting your friends and neighbors to club with you, you can have a large order come by freight at about the usual cost of a 20 or 25-pound package. You, in turn, giving each one ordering with you, their part of the merchandise and sharing the expense of freight charges according to their part of the order, which would be a fair and very economical way to order your merchandise and a method assuring all the greatest economy in every instance.

HOW TO RETURN MERCHANDISE

It is our aim to fill each and every order so carefully, and to give such good values and dependable merchandise, that you will not have to return any part of your order. But in transacting a large business it is almost impossible to keep mistakes from creeping in now and then, and should you find it necessary to return merchandise to us for exchange or refund, do not, under any circumstances, put any money in the package, whether you send it by parcel post, freight or express. If it is necessary to write a letter regarding the merchandise you are returning, send same in a separate letter by mail, making sure to enclose with it a memorandum of the merchandise you are returning, and any other particulars pertaining to the order. When returning the merchandise to us, be sure to address package plainly, writing your name and address on the outside of the package in the upper left hand corner, or use an express tag, tying same to the package.

Before returning goods please notify us that it is necessary for you to return same and we will advise you just how we desire to have you return the package. We cannot adjust complaints promptly, or refill orders, unless you notify us so we can give you the proper instructions regarding the merchandise to be returned. We cannot be responsible for the delay of merchandise being returned, unless you have first communicated with us, and we have informed you how we want same returned.

REGARDING THE RETURNING OF MERCHANDISE TO US

Do not return goods by parcel post if the package weighs more than 5 pounds, and do not return merchandise by express should the package weigh more than 20 pounds, unless we advise you to the contrary. Should you send returned goods to us by express, we pay the charges when the merchandise is received. Should you return merchandise by parcel post, you pay the postage and as soon as we receive the goods you have returned, we will forward you the amount of postage you have paid.

OMISSION OF MERCHANDISE ORDERED

We carry enormous stocks of the merchandise shown in this Katalog and expect to fill 99 out of every 100 orders promptly—that is, from within 6 to 12 hours after we receive them. We shall endeavor to fill all orders from first choice selection. However it may occasionally occur that we are temporarily sold out of some particular item, in which case, rather than delay your order for any length of time, we will ship all merchandise you have ordered except the item or items which we might be sold out of, unless you give second choice selections.

SMALL ORDERS MAKE VERY UNPROFITABLE SHIPMENTS

We will promptly fill any order sent us, regardless of how small it is, but ask you to please make your orders amount to a dollar or more, as smaller orders are very unprofitable both to you and ourselves, as the transportation charges and packing expense on orders for less than a dollar are often as great as on those amounting to from \$3 to \$5. It is to your advantage to make your order as large as possible, thereby reducing the transportation charges to the lowest amount. Transportation charges can be greatly reduced by ordering quantity of merchandise at one time. For instance, the freight charges on a package weighing 25 or 50 pounds will be as much as on a package weighing 100 pounds.

WRITE US FOR INFORMATION

Write us as often as necessary for any information you may want about our merchandise, transportation charges, etc. We will promptly answer all correspondence.

HOW TO FIGURE WEIGHT OF MERCHANDISE

Throughout the Katalog we mention the weight of each article listed, except where average weights are quoted for a certain line of merchandise, or the average weight of merchandise on the page. It is an easy matter for you to figure up the total weight of merchandise you desire to order. Simply add together the weights of the numbers you are ordering, and you will have the total net weight of the merchandise. The weight quoted under each item is for merchandise only, as we have not added the necessary weight to cover packing boxes, etc. If your order is to be shipped by parcel post, be sure to allow an extra amount for postage charges. Should there be an amount left after paying postage we will promptly return same to you.

How to have your order shipped

We recommend that you have your order shipped by parcel post or freight; however, we will ship orders by express if you desire to have us do so. We give parcel post and freight rate tables on opposite page. These tables show the approximate charges. When ordering shipment sent by parcel post, be sure to include an extra amount of money to pay postage. Shipments by freight may be sent prepaid or collect. If prepaid, be sure to send an extra amount of money to cover same. When goods are shipped by freight the rate is the same, no matter what road the shipment is sent over. Our Traffic Department routes all freight shipments so that they will reach our customers with the least delay. We pack all goods carefully so that they will reach you in good condition.

WHEN TO HAVE YOUR ORDER SHIPPED BY PARCEL POST

All shipments weighing twenty pounds or less, when the entire outside measurements are not more than 72 inches in circumference, may be sent by parcel post at the zone rate in which you live. For instance, if you live in zone 5 and your order weighs 10 pounds, the transportation charges would be 62 cents. Or if you live in zone 2 and your package weighs 3 pounds, the cost would be 7 cents. The rate for all merchandise weighing 4 ounces or less, is 1 cent per ounce regardless of distance. Packages weighing more than 4 ounces up to and including 20 pounds, take the rate of the zone in which you live. No matter what zone you live in, if you desire to have your order shipped by parcel post, you can tell just what it will cost you, by figuring up the total weight of all the merchandise you have selected. In order that you may clearly understand how to use the parcel post to the best advantage when ordering merchandise, we give on the opposite page a rate table for parcel post packages. This table shows the cost of packages weighing over 4 ounces to 20 pounds in all the different zones. Parcel post rates apply only to merchandise such as dry goods, household utensils, hardware, glassware and crockery, etc. Books, etc., are carried as third class matter regardless of distance. The rate is 3 ounces for 1 cent. When ordering merchandise shipped by parcel post, be sure to include the necessary postage to cover same. It is better for you to send too much postage than not enough, as if you should not send a sufficient amount we would hold your order until we wrote for the additional amount.

WHEN TO HAVE YOUR ORDER SHIPPED BY FREIGHT

This is the most economical method of shipping merchandise but a little slower than parcel post—therefore the great difference between parcel post and freight charges. Small orders should not be sent by freight as an order weighing 10 to 20 pounds can be shipped by parcel post as cheaply as by freight. Should your order consist of dry goods, tinware, hardware, crockery, etc., and weigh from 25 to 100 pounds or more it should be shipped by freight. Always remember that the freight charges on orders weighing 25 pounds will cost as much as one weighing 100 pounds. If you desire to take advantage of the saving offered by having your order shipped by freight, you should make it as large as possible. Freight charges are based on the 100-pound rate.

HOW TO FIGURE FREIGHT CHARGES

It will be very easy for you to figure freight charges if you consult the freight rate table given on opposite page. In this table we have given the names of the principal cities in various states. Freight rates are figured with the larger cities in each state as a basis. All other towns located in the same section of the state near one of the cities mentioned take practically the same rate, or perhaps a few cents more or less per 100 pounds than the rate given to the large city mentioned. If your town is not in the list, the rate will be about the same as the rate to the nearest city mentioned. By consulting your nearest freight agent you can find out just what the rate to your town is per 100 pounds.

Transportation charges do not amount to very much

Parcel post, express or freight charges do not amount to very much when you consider the great saving you make by ordering your merchandise from us. There would be no object in our issuing this Katalog if we could not save you money on all the merchandise you bought of us, regardless of where you live, providing the order amounted to enough to make a profitable shipment. For instance, orders amounting to less than one dollar make very unprofitable shipments if the customer lives beyond the third zone. We guarantee to save you from 25 to 50 per cent on all the merchandise you

order from this Katalog. You can see from these figures that you do not have to order many dollars' worth of goods to more than make up express or freight charges. Read our special prepay offer on orders amounting to \$10 or more on page 3. If you wish to make the greatest saving in transportation charges, order merchandise for the entire family at one time and have it all shipped together. Do not fail to show this Katalog to your friends as they will, no doubt, want to order merchandise with you, which will help you make a still greater saving in transportation charges.

Things to remember when ordering

All orders weighing from 4 ounces to 20 lbs. can be shipped by parcel post to any point in the U. S.

Packages weighing 4 ounces or less can be shipped by parcel post at the rate of 1c per ounce to any zone.

Packages weighing over 20 lbs., and not more than 50 lbs., can be shipped by parcel post to points within zones 1 and 2.

All printed books, such as fiction, toy books, etc.,

can be shipped by mail at the rate of 3 ounces for 1c. to any point in the U. S.

When ordering, be sure to state Katalog numbers of the articles you desire, as well as sizes and colors, if this information is required.

Be sure to enclose an extra amount of money to pay transportation charges if you want your order shipped by parcel post, freight or express, when it is necessary to prepay charges

Hundreds of thousands of women who live within shopping distance of one of the many Kresge 5c and 10c Stores find it profitable and practical to buy their shapes and trimmings from us, because they save money—often as much as from \$1.00 to \$2.00 on a hat, by doing the trimming themselves.

HOW TO ORDER HAT FRAMES

We illustrate on this page ten of the latest styles for the coming season. Select the style you prefer and order by Katalog Number. In order to make it a profitable shipment, we advise you to order, at least, one dollar's worth of dry goods with your millinery order, as the transportation charges will not amount to very much more, owing to the manner in which we have to pack the shapes in order to insure safe delivery of same. For instance, the average weight of hat frames when boxed ready for shipment is about 2 pounds, and by ordering dry goods and millinery trimmings the weight will not be increased very much, thus assuring the greatest possible saving on transportation charges.

See our Special Bargains in Flowers and Ribbons on pages 31 to 35.

Be sure to order at least one dollar's worth of dry goods or millinery trimmings when ordering hat frames; as a single hat frame makes an unprofitable shipment.

We guarantee satisfaction or will return your money.

Weight of one Hat Frame boxed, ready to ship, 2 pounds.

HOSIERY

for MEN, WOMEN & CHILDREN

PER PAIR 10¢

GUARANTEED HOSIERY AT 10c

Numbers AX100, AX113 and AX114, on this and the following pages are Guaranteed Hose for Men, Women and Children. We absolutely guarantee these numbers to give satisfactory wear, or to replace them without extra cost. Our Guarantee Ticket is attached to every pair. Nothing over 10c.

On this and the following pages we show the same good qualities in hosiery that have contributed to the success of the Kresge Stores. The values are so great that many of our customers purchase hosiery in lots of a dozen or more pairs. We are sure that you will be so pleased with your first order that you will do likewise. The variety shown in these pages enable you to order for every member of the family. The wearing quality of our hosiery will surprise you.

We have made a specialty of strong school stockings for children. Boys and girls attending school need a good strong wearing stocking, and we have selected our lines with this in mind. In our ladies' hosiery we have a variety of weights from light gauze to the heaviest grades, and a variety of styles and weights in men's hosiery to please everyone.

The numbers bearing our Guarantee ticket are positively guaranteed, and we will send you a new pair for any that give unsatisfactory wear. When returning our guaranteed hosiery for exchange it is necessary to return the guarantee ticket from the original pair with the stockings.

All of the numbers shown on these pages are seamless, with two exceptions, and these are mentioned in the description. The patent toes are so well made that they can be worn with as much comfort as full seamless goods.

When ordering be sure to give correct style number, color and size. If in doubt about the size, tell us the size of the shoe you wear and we will fit you perfectly. Remember — Nothing over 10c.

OUR GUARANTEE

We absolutely guarantee the jewelry shown on this and the following pages to be exactly as represented, and we will cheerfully refund your money if for any reason you are not satisfied with your purchase.

On this and the following pages we show exceptional bargains in jewelry for women and men. Our buyers regularly visit the country's largest jewelry markets for the latest novelties and designs, and our immense buying power enables us to sell these articles to you at about half of what retail jewelers charge. Everything shown in our Jewelry Department is dependable, and we guarantee that you will find everything to be as represented. When we state that we guarantee an article to wear one year we mean absolutely what we say—that we absolutely guarantee that

article to wear to your satisfaction for one year. The engraving, hand painting and settings will give satisfactory wear. When purchasing bar pins or beauty pins, do not fail to include a few items for the gentlemen. On pages 56, 57 and 58 you will find exceptional bargains in cuff links, collar buttons, stick pins, scarf sets, coat and vest chains, watch fobs, etc., nothing over 10c. Bracelets, La Vallieres, rings, neck chains, etc., for women and children will be found on the following pages—exceptional values at 5c and 10c each. Read our guarantee above.

The illustrations above show goods about two-thirds actual size.

How To Order Rings:

Cut a narrow strip of thick paper long enough to go around second joint of finger on which you want to wear the ring. Place one end of the paper on top of the joint and draw the strip tightly around the finger. Make a pencil mark where the paper meets this end; then cut off at pencil mark and send us the part that was wrapped around finger.
